DETAILED ACTION

Response to Amendment

1. The applicants amendment filed December 27, 2008, has cancelled claims 5, 22, and 49. Claims 1, 2, 4, 18, 19, 21, 35-38, 41, 42, 45-48, and 52 have been amended and no new claims were added. Thus, the currently pending claims, addressed below, are 1-4, 6-21, 23-48, and 50-56.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. The applicants arguments, regarding the 35 U.S.C 112, second paragraph rejection of Claims 1, 18, 39, 49, 55, and 56 as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention, has failed to overcome the rejection. Thus, the examiner maintains the rejection. While the examiner agrees that the recitation of "said" prior to the second instance of "indices" provides an antecedent basis, the first instance recites "one or more indices" meaning a group of indices. The recitation of "said" in the second instance provides an antecedent basis for the "one or more indices" or the group. Therefore, the applicant's argument that the same indices are used is only distinctly claimed when one indices is used. When "more indices" are in the initial group the claim language does not particularly point out and distinctly claim that the same indices are used. Instead two different indices may be used, one for the first

set and the other for the second set, as long as both indices are in the initial group of indices.

4. The amendment dated December 27, 2007 has amended Claims 2 and 19 to overcome the 35 U.S.C. 112, second paragraph rejection regarding indefinite language in the claims. As such, the examiner hereby withdraws the rejection.
5. The amendment dated December 27, 2007 has amended Claims 4, 21, 36, 37, 38, 41, 42, 46-48 and 52 to overcome the 35 U.S.C. 112, second paragraph rejection regarding indefinite language in the claims. As such, the examiner hereby withdraws the rejection.
6. The applicant's arguments regarding Claims 4, 12, 21, and 29 and the term "different times" is intended to mean "not at the same time". The examiner is willing to accept this definition and hereby withdraws the 35 U.S.C. 112, second paragraph rejection regarding indefinite language in the claims. However, Claim 1 recites "offering said first set of shares and said second set of shares wherein at least some shares from one or both of first set of shares and said second set of shares may be procured". If shares from both of first set of shares and said second set of shares may be procured, then an offering or issuance exists for both shares at the same time. As such, Claims 4, 12, 21, and 29 are rejected under 35 U.S.C. 112,

second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

7. The applicant's amendment dated December 27, 2007 has failed to correct indefinite language found in Claims 13 and 30. Therefore, the 35 U.S.C. 112, second paragraph rejection regarding indefiniteness is maintained. The examiner can not find an indication in the specification of the claims that defines the specific metes and bounds intended by the term "threshold value". Therefore, the term is considered indefinite.

Claim Rejections - 35 USC § 102

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

9. Claims 1-56 are rejected under 35 U.S.C. 102(b) as being anticipated by Mayo ("Investments, An Introduction", Fourth Edition, The Dryden Press, ISBN: 0-03-097647-2, 1993, pgs 521-627).

Response to Arguments

10. Applicant's arguments filed December 27, 2007 have been fully considered but they are not persuasive. The applicant argues that Mayo is not understood to teach proxy assets that are based on one or more illiquid assets as recited in the newly submitted amendment to claim 1. However, Mayo discloses, on Page 586, paragraphs 1 and 2 and Exhibit 20.1, that future contracts and arbitrage transactions include proxy assets for commodities such as wheat or cattle which is an illiquid asset.

Conclusion

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
